25X1A SECRET On 1 June, fresh imprints of track-laying vehicles leading from the southern gate to the area west of the installation were observed at Gamp Spratzern south of St. Poelten. Other vehicles seen included 2 SU-76s, 2 half-track weapon carriers, and 5 trucks. A group of 30 unarmed soldiers did close-order drill. 25X1 25X1 All vehicles were driven by soldiers with red-bordered black epaulets. 25X1A 1. Comment. The observations confirm the previous assumption that the bulk of the 23rd AAA Div had left its home stations. On 8 June 1953, troop trains of the 23rd AAA Div proceeding toward the Apetlon AAA Range were observed by another source. These contingents 25X1A of the 23rd AAA Div possibly had been previously at roop training grounds or a summer camp. 25X1 25X1A 2. Comment. Most of the observations at St. Poelten and Camp Soratzern on 1 June 1953 are similar to observations made by the same source on 28 May 1953. . The present report also indicates that contingents of the troops stationed at the Prinz Eugen Kaserne and Franz Josef Kaserne, probably the engineer battalion and the signal battalion of the 95th Gds Mtz Rifle Div, had left St. Poelten. The occupation of the Rainer Kaserne, however, indicates that other units of the division remained at the post. Camp Spratzern south of St. Poelten was also occupied. Most of the vehicle reported from St. Poelten and Camp 25X1

Spratzern belonged to the 95th Gds Mtz Rifle Div.
